2018 ANNUAL REPORT

**A MODEL
OF SOCIAL
TRANSFORMATION**

"OUR PATH"

During the year 2018, at ABD we have continued to pool collective efforts to improve the care and attention to persons in a situation of social fragility. Their needs are increasing all the time, and so we are working to accompany them in greater quantity and quality.

In addition, we have set in motion our "road map," which has a number of very clear strategic goals:

RECOGNITION

SOCIAL
COMMITMENT

QUALITY AND
INNOVATION

SHARED LEARNING AND
MANAGEMENT OF THE ENTITY
AS A COMMON ASSET

We see many challenges on the horizon

HORIZON
2019

For the year 2019, we want to take new steps and achieve a more attentive, flexible and transversal organisation that will promote innovation, analysis of the setting, constant communication, commitment of the volunteers and greater participation of the persons we support.
