

HOME4HEALTH

TECHNICAL DETAILS

Name of the project: Home4Health

Program and call: Erasmus+ Programme.
Key Action 2: KA220-VET - Cooperation partnerships in vocational education and training

Reference: 2023-1-ES01-KA220-VET-000156754

Coordinator: Asociación Bienestar y Desarrollo ABD (Spain)

Partner organizations: CRESCER (Portugal), HVO-Querido (Netherlands), Cork Simon Community (Ireland)

Project duration: January 2024 - June 2026

Area of action: Europe

The main motivation of the Home4Health project is to collaborate with civil society organizations, institutions, and public authorities in addressing, from a socially inclusive perspective, the challenges encountered in caring for **homeless people facing complex health issues and traumas**, such as **addiction**. The project aims to increase opportunities for professional development by sharing best practices and experiences at the European level.

TARGET GROUPS

➤ Direct target groups:

- Professionals -including VET professionals- working in the health and social sectors
- Civil Society Organizations (CSO's), VET institutions, Academia, Umbrella organizations and Public Administrations at a local, regional and EU level

➤ Indirect target groups:

- Beneficiaries/clients of the selected initiatives
- General stakeholders
- General public

HOME4HEALTH

MAIN ACTIVITIES

- **Good Practices and GAP Analysis** on the national and EU contexts related to health and social initiatives addressing homeless people with complex health and trauma issues
- **European knowledge and experience sharing meeting** in Lisbon
- **European and National Exchange and Peer-learning Workshops** (Cork, Amsterdam, Barcelona and Lisbon)
- **Cross-Sector Training materials:** VET Training Program, MOOC and Toolkit targeting professionals, institutions, universities, NGOs, Public Administration and Social Economy Enterprises.
- Dissemination activities and networking events, including a **communication campaign**
- Creation of a **European Support Network** for initiatives providing access to housing for homeless individuals facing complex health issues and traumas.
- **EU Guidelines** to support local governments to adopt innovative and inclusive approaches when addressing homeless people with complex health and trauma issues.

IMPACT AND RESULTS

- At least **5 best practices** are identified in the Good Practices and GAP Analysis research by each partner
- At least **24 key practitioners** participate in the European Knowledge Experience sharing Meeting
- At least **160 professionals** acquire new competences and skills appropriate for working with people at risk of social exclusion
- At least **80 guests** attend the European Conference and Networking event in Barcelona
- At least **10 organizations/initiatives** and **4 specialized platforms** are involved in the creation of the Home4Health European Support Network
- At least **20 key stakeholders and public authorities** are interested in capitalizing and following up on the project results
- At least **8.000 citizens** will be reached throughout the dissemination and communication campaign.
