Duration: 36 months

Action Area: Italy, Greece, Spain, Sweden, Slovakia.

The "**Agri for Integration**" project promotes the inclusion of Third-Country Nationals (TCNs), especially women, into the local agri-food job market by co-designing strategies with community stakeholders. It provides sustainable agriculture training and career mentoring for TCNs and capacity-building for inclusion professionals. The project aims to empower TCNs, foster inclusion, support local economies, and promote sustainability.

SPECIFIC OBJECTIVES

- Map, promote, and disseminate **best practices for TCN inclusion**, and assist local authorities in creating effective inclusion strategies.
- Help TCNs **find employment** through bridge events with employers and **improve their skills** in sustainable agriculture and employability.
- **Raise awareness** of TCNs' employment rights, environmental responsibilities, and the need for inclusion in the agri-food sector.
- Enhance intercultural skills of host communities for **better social inclusion** and support TCNs

MAIN ACTIVITIES

- Creation of **5 multi-stakeholder partnerships** involving **50 stakeholders**.
- Organization of **65 consultation activities** involving **60 stakeholders**, including **30 TCNs**.
- Collection and dissemination of **20 best practices**, and **5 webinars** with local authorities.
- Development of **1 local inclusion strategy** to enhance coherence between migration, agriculture, and inclusion into the labour market.
- Conduct **25 bridge events**, supporting **250 TCNs** in finding employment.
- Hold **50 workshops** on working in the agri-food sector, engaging **500 TCNs**.
- Conduct **30 capacity-building workshops** for **450 host community members**.
- Conduct **5 training workshops** for career mentoring coordinators and mentors, with **300 mentoring sessions**.
- Create an **e-platform** for distance learning and dissemination of training materials.
- Inform approximately **10,000 people** about the project's activities and benefits.
- **Disseminate good practices** for TCN inclusion at national and EU levels.

IMPACT AND RESULTS

- **250 TCNs** receive assistance in finding employment.
- **500 TCNs** attend training and workshops, learn about work in the agri-food sector, and increase their employability skills.
- **50 stakeholders** become directly involved through partnerships with organizations
- Improved **social inclusion and economic outcomes** for TCNs through employment and reduced discrimination and exploitation
- **Strengthened role** of public authorities, host communities, CSOs supporting TCNs, and agribusinesses.
- An **enhanced understanding of EU policies** among public agencies to support continued TCN inclusion.
